PROJECTS

.DCSN ─ **Live Link** | GitHub Repo

Front-end passion project built using JavaScript, HTML5 & CSS3 along with the Google Maps API
for a tinder-like restaurant-finding & deciding experience

- Implemented the Google Maps Places & Geocoding APIs to geolocate and match point-of-interest data
  within a certain radius of the user
- Built as a single-page mobile responsive web app to mimic a live smartphone app

Where Next ─ **Live Link** | GitHub Repo

Full-stack Ruby on Rails travel blog dedicated to providing trip planning advice

- Implemented the Devise gem which allows users full CRUD functionality to post, edit, delete and comment
  on blogs. Utilized the CKEditor gem to help users add text styling and images to blog posts
- Incorporated a multitude of JavaScript click events for improved UX

EXPERIENCE

Karma Agency ─ **Philadelphia, Pa** - *Account Executive*   **Sept. '16 - Aug. '18**

- Managed a multitude of print and digital projects for a major international outdoor decking brand, Trex, as
  well as managed the creation of myriad digital campaign assets for Nike's Emerging Markets team,
  ensuring they meet Nike's high creative standard.

Dudnyk ─ **Horsham, Pa** - *Project Manager*   **March '16 - Sept. '16**

- Oversaw assigned projects through routing review process. Led internal meetings, and participated in
  client calls as appropriate. Managed project work flows from design to implementation for both print and
  digital deliverables.
